

# ADJUSTABLE TAB SLIDES

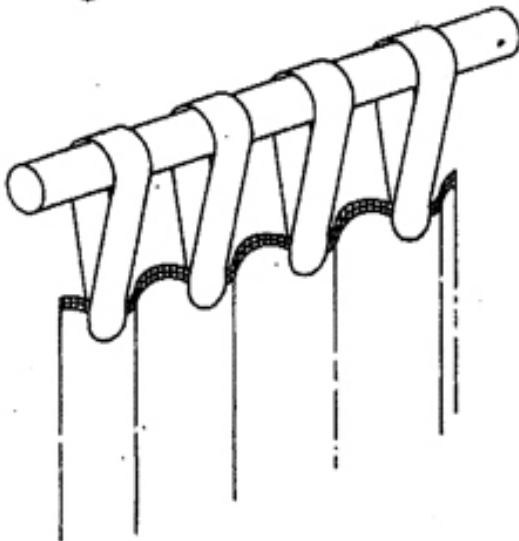

Open And Close Tab Curtains With Ease  
Fits Rods Up To 2"

## INSTRUCTIONS

### Make One Adjustable Slide Per Curtain Tab As Follows:

1. Remove the first set of three glides. Note that the second one is different, with a recessed space on top.
2. Thread the hook Velcro® fastener through the plastic glides. The second glide with the recessed top must be in the center.
3. Bend the hook Velcro® fastener following the pole diameter. Position the two outside glides at the widest distance on either side of the pole.
4. Attach the pressure sensitive loop Velcro® fastener to the inside of the curtain tab by pressing in place. Sew if desired (optional).
